THE PROVEN INDUSTRIAL DEALER FOR GENERAC POWER SYSTEMS

Pro Power Solutions is a full service distributor of Generac industrial generators - providing superior product sales, service, installation solutions and superior technical support throughout Georgia. We are dedicated to offering a level of customer service that is unsurpassed in the industry. Our team of experienced professionals has over 200 years of collective sales and service experience in power generation.

Because your standby power needs are unique, we offer comprehensive design and installation services – evaluating your power needs and recommending solutions custom-tailored to your specifications. From hospitals to data centers, non-profits, government centers and retail establishments, we've provided solutions that are economical, proven and reliable. We will work with you and your design and installation team to ensure a seamless application - from product purchase, to system commissioning. Once you've selected a standby power system, we can also work with you to arrange financing and/or leasing options.

INDUSTRIAL GENERATOR PRODUCTS

Pro Power Solutions specializes in providing effective power solutions through an array of reliable, long life products that are adaptable to a wide variety of demanding applications, these include:

Generac Industrial/Commercial Products:

- **Diesel Generator Systems** - Custom configured to meet the specific requirements of each application
- **Gaseous Generator Systems** (Natural Gas and LPG) - Custom configured to meet the specific requirements of each application
- **Bi Fuel Generator Systems** (Diesel and Natural Gas) - Generators are EPA certified from the factory, tested and installed
- **Gemini Generators** - When space is at a premium and reliability is critical
- **Modular Power Systems** (MPS) - An integrated approach to generator paralleling
- Power Manager Control Systems
- Automatic Transfer Switches
- Telecommunications Applications
- Complete Line of Enclosures, Tanks and Accessories

Generac Residential/Light Commercial Products:

- Highly affordable, EPA Certified natural gas and liquid propane gas (LPG) fueled generators designed specifically for the commercial market
- #1 selling brand and leader in home standby generator systems
- Larger systems for residential power services from 400 amps – 1000 amps

GENERATOR SERVICE, PARTS & RENTAL

You can rely on Pro Power Solutions to be your generator service provider - any day, any hour. Our factory-authorized technicians have the experience and expertise to ensure your system will be ready to handle all your standby power needs.

Generator Service:
